KM Series

'User pays' metered site power with the full range of options.

If spiralling electricity costs are a problem in your park, this is the powerhead for you. Fitted with NMI approved kWh meters for monitoring power use, the KM Series enables a 'user pays' system for site power usage. Ideal for annual and permanent sites, the KM Series comes in pole mount and column mount varieties and is available with the full range of options, including water taps, lighting, TV and lockable doors. When fitted with our remote meter reading system (Orto-Mate), the KM Series also offers the perfect 'user pays' solution for tourist site, where guests can be billed for their power usage with the click of a button, upon checkout.

Options
